About

Senior Software Engineer with 15+ years of experience building scalable backend systems. Author of "Building Web Applications with Django" (Packt). Passionate about clean code, good engineering practices, and open source.

Experience

- Aug 2023 – **Senior Engineer, FareHarbor, Amsterdam.**
 - Present Senior Engineer working on backend systems for the leading booking and management platform for tours and activities worldwide.
- Sep 2021 – **Senior Engineer, Sendcloud, Eindhoven.**
 - Jul 2023
 - Designed and implemented microservices to modernize monolithic application
 - Proposed and executed technical solutions to improve architecture
 - Promoted BDD practices to enhance communication and quality
 - AWS Cloud Infrastructure support (Terraform, Docker, Kubernetes)
 - Onboarding and training of new teams
- Oct 2020 – **Backend Engineer, Wildlife Studios.**
 - Sep 2021
 - Real-time service processing millions of events for business-critical models
 - Technologies: Golang, Ruby, Python
 - Product with 300+ million users
- Mar 2019 – **Principal Software Engineer, FaradaySec.**
 - Oct 2020
 - Key role in growth and technical direction
 - Led migration from CouchDB to PostgreSQL
 - Promoted TDD, CI/CD, and automation practices
- Mar 2017 – **Senior Software Developer, FaradaySec.**
 - Mar 2019 Vulnerability management product development and project organization.
- Mar 2016 – **Researcher, IBOBA (Max Planck Partner), Buenos Aires.**
 - Mar 2017 Licenciatura thesis: Data mining for drug discovery. Developed algorithm for ligand-protein simulation evaluation.
- Jan 2013 – **Technical Leader / Developer, Onapsis.**
 - Mar 2016
 - JS/Python developer on vulnerability scanner
 - Built Django + Salesforce API integration
 - Led team of 4 developers
- Jan 2012 – **Software Developer, SCV.**
 - Jan 2013 Java/Python developer for advanced energy services.
- Dec 2010 – **Software Developer, VerkkoStadi, Dominican Republic.**
 - Jan 2012 Cloud OCR processing 5 million images/day (Python, MySQL).

Book

- 2024 **Building Web Applications with Django** – Packt Publishing
Modern Django development: Django 4.2, Django Ninja APIs, pytest, Docker, Kubernetes.

Education

Licenciatura en Ciencias de la Computación, *Universidad de Buenos Aires*, Argentina.

Technical Skills

Languages	Python, Go
Frameworks	FastAPI, Flask, Django, Django Ninja
Databases	PostgreSQL, Redis
Infrastructure	Docker, Kubernetes, AWS, Terraform, Nix
Messaging	RabbitMQ, Kafka
Testing	Pytest, BDD

Languages

Spanish	Native
English	Fluent

Interests

Cycling, Motorcycling, Photography
